

Welcome to our small cellar,
a space filled with dreams and aspirations. It is a true pleasure to share it with you;
take your time, savour it slowly, and let yourselves be carried away by the emotions
that each wine is meant to evoke.

- Our prices include 10% VAT and are expressed in euros –
- Almost all the wines on our list are available by the glass –

A letter from our Sommelier, Patricia García.

Welcome to our liquid universe.

Pabú's wine list is, above all, a big smile.

A natural extension of what our cuisine wants to convey: **emotions.**

Each word, each dish, each stroke, are a small reflection of moods, experiences and illusions. Through it, we seek to relate in a more human, sincere and profound way. From knowledge and inexhaustible curiosity, but also from sensitivity and empathy towards those who read it.

In these pages we try to make the past and the future coexist in harmony; that memory and imagination meet, and that the poetic is not at odds with the rigorous.

Hopefully, we will be able to make to make complexity approachable, and the everyday memorable.

With affection and gratitude,

Patricia García.

Wrapped in bubbles.

This poem marks the beginning of our wine list — the very essence from which it was born. It offers both structure and understanding to the chapters that follow. We invite you to enjoy the journey. Each verse represents a style.

They lived in the north,
and used cold as their coat.

They travelled south with generous veils,
to be bathed in light.

Golden as the sun,
*they climbed onto a cloud,
and smelled the first flowers,
in butter fields.*

Drinking broths to get lost,
*under the rain,
they took the last bath,
and camped in the forests.*

They blushed with appearances and secrets,
showing their true colours.

Enveloping themselves with their own skin,
once white but wanted to become red.

They ended up expressing themselves in the purest of ways,
revealing their sweetest confidence.

Let Yourself Be Carried Away. *Liquid Harmonies (Wine Pairings).*

From creativity and a profound love for gastronomy, we offer several journeys through which to experience wine in a uniquely personal way, each harmony thoughtfully composed to accompany every dish.

Our *liquid harmonies*—wine pairings— evolve daily, just like our menu. We invite you to choose the path that best reflects the style of wines you wish to enjoy.

A.O.C. Champagne.

We have created a very special selection; born from the affection and fascination we feel for the great wines crafted in this French region.

With this list, we wish to embrace the two profound philosophies that coexist today in this part of France. Each, in its own style, gives rise to wines as sublime as they are memorable.

Champagnes made by “Vignerons”.

Known in French as **“Récoltant-Manipulant”**. These producers own their vineyards and do not purchase external grapes. Their wines are entirely estate-grown, made with the purpose of expressing the unique character of the land, the variety, and the vintage.

Champagnes made by “Maisons”.

Known in French as **“Négociant-Manipulant”**. These houses, in addition to working their own vineyards, also purchase grapes to maintain a consistent style in their creations.

Through this delicate alchemy of grape varieties and vintages, each Maison has forged its own identity—one that often transcends centuries and borders.
